

If you would like to hear more about our “Carbon Zero” recruitment solutions or discuss your own organisations talent acquisition requirements, please email using the details below and we will book a call with the relevant consultant.

The complete leadership talent partner to the Consumer and Retail industries

2023 proved another challenging year for many of us and it was no different in the food and consumer sector. Despite the uncertainty, our industry has continued to gain pace with more customers than ever choosing green-conscious goods from sustainable suppliers. Food manufacturers are charging forwards to meet the demand – and, as a specialist in sourcing and placing leaders within the sector, Naturalis People is ready and equipped to continue supporting businesses who are focused on purpose, social responsibility and sustainability. We are helping our clients on their transformation journey.

Alan Gove

Founder & Chief Executive Officer

After more than 25 years managing and leading recruitment brands, I founded Naturalis People as a specialist providing high-end leadership talent acquisition within the food and consumer sector.

Our C-suite, Non-Exec, Board Advisory, Leadership and Future Leaders People solutions are delivering for our clients and I’m proud to lead our team of experts as we support our partners, delivering the talent they need in 2023.

A year of achievement and purpose

In 3 years, Naturalis People has grown from an passionate idea, to a trusted consultant tackling the challenges faced by our industry, we are providing solutions to facilitate leadership acquisition in food and consumer, working with single-founder start-ups and private equity series A&B structure builds, to working in partnership with large multi National food groups.

The foundations of our success

- Building robust and progressive leadership structures across all disciplines within the food and consumer sectors.
- Applying our collective sector specialism, multi-discipline knowledge and demonstrable experience in C-suite, leadership and future leadership talent acquisition.
- Connecting leaders who understand sustainability with the businesses reliant on their intelligence and commitment to progress.
- Assisting private equity and venture capital – enabling them to construct the correct Leadership structures following investment.
